Walkways

**DIRECTIONS:**
- Do the best you can to answer the questions in each section.
- If you don't understand the question or don't know the answer, just put a question mark or other mark next to the question.
- If a whole section does not apply (e.g., you don't have that type of equipment) just mark it out with a slash.
- Contact Environmental Health and Safety (EH&S) (nph4@cornell.edu; 255-8200) or CALS Occupational and Environmental Health (OEH) (eh22@cornell.edu; 255-0485) if you really get stuck.

1. Are aisles and passageways kept clear?  
2. Are aisles and walkways marked as appropriate?  
3. Are wet surfaces covered with non-slip materials?  
4. Are holes in the floor, sidewalk, or other walking surface repaired properly, covered, or otherwise made safe?  
5. Is there safe clearance for walking in aisles where motorized or mechanical handling equipment is operating?  
6. Are materials or equipment stored in such a way that sharp projectiles will not interfere with the walkway?  
7. Are spilled materials cleaned up immediately?  
8. Are changes of direction or elevations readily identifiable?  
9. Are aisles or walkways that pass near moving or operating machinery, welding operations, or similar operations arranged so that employees will not be subjected to potential hazards?  
10. Is adequate headroom provided for the entire length of any aisle or walkway?  
11. Are standard guardrails provided wherever aisle or walkway surfaces are elevated more than 30 inches above any adjacent floor or the ground?
