

## ADDING A PESTICIDE CERTIFICATION CATEGORY

When certified in one of the following three categories and then adding one of the following three Pesticide Certification Categories: 2 Forest, 3 Ornamentals and Turf, and 6 Right-of-Way there is not a requirement for 12 credits or 1 year of experience prior to taking the exam. The categories are very similar in scope.

For all other categories of certification an applicator must have 12 credits or 1 year of verified experience prior to taking the exam to add the category.
