

## Record of Projected Use: Small Scale Testing of Experimental Pesticides Applied Off Cornell Property (Spring)

To be completed in the spring by researchers who expect to use experimental use pesticides during the year on property other than that owned by Cornell. Experimental use pesticides include 1) those requiring either a Federal or State EUP or 2) those used on a small scale for off-label or new-label research. Use the best information available to complete the form. You must submit the "Record of Use: Small Scale Testing of Experimental Pesticides Applied Off Cornell Property (Fall)" form after the growing season to update your use records. If on campus, submit all forms to Eric Harrington, 416 Kennedy Hall. If off campus, please submit form to Eric Harrington, 416 Kennedy Hall, 215 Garden Avenue, Cornell University, Ithaca, NY 14853.
